

HiLCoE

School of Computer Science & Technology

The School of Your Dreams!

OUR ACADEMIC PROGRAMMES

Bachelor of Science in Computer Science

Develop next-generation technical expertise through our BSc. in Computer Science program blending algorithmic foundations with emerging technologies. Specialize in AI/ML, cybersecurity, or IoT systems while mastering industry-standard tools like TensorFlow, and AWS cloud infrastructure.

Bachelor of Science in Software Engineering

Master the end-to-end software development lifecycle through a program designed to cultivate architects of mission-critical systems. Build responsive web/mobile apps with React, Node.js, and Flutter, integrated with Firebase or MongoDB. Learn to design, deploy, and maintain scalable solutions using Agile, DevOps, and CI/CD methodologies.

Cyber Security Class On Demand.

Masters of Science in Computer Science

Enhance your understanding of computing principles and practices with our rigorous Master of Science in Computer Science program. This degree is designed for those who aspire to be at the forefront of technology and innovation. Tailor your education with options in Artificial Intelligence, Machine Learning, Cybersecurity, Data Science, and more, aligning your studies with industry trends.

Masters of Science in Software Engineering

Elevate your expertise in software design, development, and management with our advanced curriculum tailored for future leaders in technology. This program emphasizes both theoretical foundations and practical applications, preparing you to tackle complex software challenges in an ever-evolving digital landscape.
